Branding

Branding Solutions

Our dedication to high quality and ever-expanding branding solutions guarantee that we have the right solution for your brand. No matter the product, we can brand it.

Branded clothing is an effective way of increasing your brand awareness, whether it's your staff at an office, conference, or event.

Here are a few of the most popular branding types for Apparel & Workwear:

- Embroidery
- Screen print
- Heat press

Branding Options

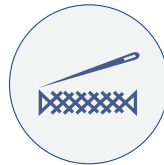

Each product has a suggested branding method icon, these are suggestions of the best branding method to use for your products.

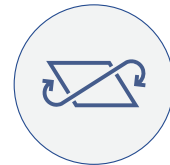

Pad printing is done using a silicone pad. It functions as a transfer vehicle, picking up ink from the printing plate, and pressing it directly onto the product.

Screen printing is a printing technique whereby a mesh screen is used to transfer ink onto a substrate. This is the most common method of imprinting on promotional items and apparel.

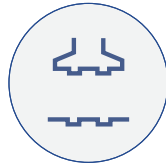

Embroidery is stitched with a computerised embroidery machine using patterns digitised with embroidery software.

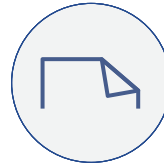

Digital printing is a method whereby the image is printed directly onto the product. This application provides you with a full colour printing option.

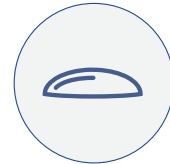

This method is achieved by burning the top layer of the substrate with a thin laser beam that cuts through the product creating a lasting detailed logo.

Deboss printing involves creating a die in the shape of a logo that is pressed into the surface creating a permanent sunken design.

Digital stickers are digitally printed directly onto a vinyl adhesive substrate that can be affixed to a product. This application provides you with a full colour printing option.

Dome printing is digitally printed directly onto a vinyl adhesive substrate that can be cut into a variety of shapes and sizes. The stickers are then coated with a polyurethane to give a dome-like appearance creating a 3D effect.

The background of the entire page is an abstract composition of various shades of blue and white. Overlaid on this is a dense, repeating pattern of fingerprints, which serves as a visual metaphor for individuality and performance. The text is rendered in white, contrasting sharply with the darker blue areas.

Sports T-SHIRTS

Engineered for performance, designed for style. Whether you're hitting the gym, running the track, or dominating on the field, our sports t-shirts provide ultimate comfort and breathability. Made with moisture-management, lightweight fabric, these tees keep you cool and dry, no matter how intense the game gets.

TEAMWEAR

A person wearing a blue and white team uniform is visible on the right side of the image. The background is a dark, textured surface with large, light-colored footprints, suggesting a field or track. The overall tone is professional and athletic.

Unite, perform, and stand out with our high-quality teamwear, crafted to support every athlete's needs. Whether on the field, court, or track, our teamwear is designed for durability, comfort, and style, ensuring your team looks and feels its best.
